

KorGuard

KorGuard

Fabric Stain Protector

DESCRIPTION

KORGUARD is a water-borne polymer system for carpet and upholstery that provides exceptional repellency of oil, alcohol and water. Fabrics protected with KORGUARD demonstrate excellent soil resistance and soil release.

DIRECTIONS

For carpet applications: One gallon of KORGUARD will treat 400-600 square feet of fabric.

For apparel and upholstery: Apply 1-2 fluid ounces per square yard.

Drying time for an application of KORGUARD is 1-2 hours. Cure time is 24 hours to develop maximum protection. Test small area of fabric before application. **DO NOT USE ON FABRICS THAT ARE SENSITIVE TO WATER.**

ADVANTAGES

- Extends fabric life
- Resists water, alcohol and oil
- Prevents staining and soiling
- Great for use on all types of fabrics and carpets
