

Best Red

**HEAVY DUTY GRANULAR
TRUCK & AUTO CLEANER**
Industrial Strength · Free Rinsing · Metal Safe

Heavy Duty Granular Truck & Auto Cleaner

DESCRIPTION

Best Red is a concentrated cleaner for brush or pressure washing of cars, trucks and industrial equipment. Best Red is a red, granular product used to remove road grime, dirt, and greasy soil from truck and automobile bodies. Contains biodegradable detergents, powerful wetting agents, foam boosters, builders, corrosion inhibitors and water softeners.

DIRECTIONS

Manual Washing: Add 1/2 to 1 ounce of Best Red per gallon of water. Apply solution with soft brush, sponge or cloth. Do not allow solution to dry on the vehicle surface. Rinse cleaned areas well with clear water. Allow vehicle to dry or wipe with soft cloth. For best results, do not wash vehicle in the sun.

Self Serve Car Wash: Premix 2 to 4 pounds of Best Red per 50 gallons of water. Proportion solution into hot water wash line through needle valve. Apply solution to vehicle, wash thoroughly and rinse off with clear water.

High Pressure or Automatic Brush Washing: Add 1 to 32 pounds of Best Red per 100 gallons of water in the solution tank. High pressure units require less detergent, typically 1 to 3 pounds per 100 gallons of water. Use hot water for best results. Apply solution to automotive surface, let sit briefly, active automatic brush and rinse surface.

Note: Powder rapidly dissolves in hot or cold water. Use hot or warm water for best results and make sure powder is fully dissolved prior to using.

ADVANTAGES

- **Powerful Cleaning & Degreasing Action**
- **Will Not Harm Painted Surfaces**
- **High Foaming Detergent**
- **Hard Water Tolerant Formula**
- **Easy To Use**
